DDI ACTIVITY REPORT ITEM
(13-17 September 1965)

Issuance of CIA/BI GM 66-2, Kashmir

Hostilities between India and Pakistan have dramatized the significance of Kashmir as the focal point of antipathy between the two countries. As a follow-on study to previous geographic Intelligence Memoranda dealing with the India-Communist China confrontation, we published this week an assessment of environmental factors that affect the military situation in Kashmir. The author of the study has been drafted full time for service on the Kashmir Task Force.
